

PLUG-IN-TIMER

1 Setting ON/OFF times

Move **all** tappets between "ON" and "OFF" times required to outer position on outer dial. See figure 1.

2 Setting current time

450 S (fitted with clock hands) – rotate outer dial slowly until arrowhead aligns with current weekday. Set precise time by rotating minute hand.

400 S (fitted with clock hands) – rotate minute hand until arrowhead aligns with correct time on outer dial.

200 S (without clock hands) – rotate outer dial **slowly** to align arrowhead with correct time on outer dial.

Do not attempt to rotate the clock hands or the dial in an anti-clockwise direction as this could damage the mechanism.

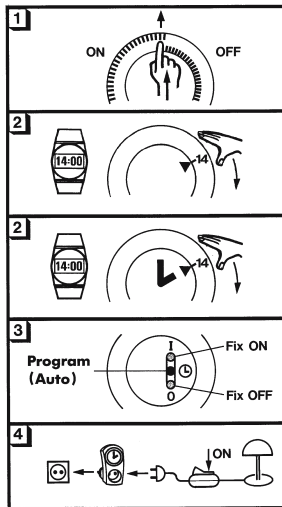

3 Manual override switch

- In position 1 the timeswitch is permanently ON irrespective of tappet positions.
- In position 0 the timeswitch is operating on timed control and will only switch ON and OFF as determined by tappet positions.
- In position 2 the timeswitch is permanently OFF irrespective of tappet position.
- See figure 3

3, 4 Connecting your appliance

Plug the timer into the socket. Switch the socket on. Plug the appliance into the timer's socket and switch the appliance on. The appliance will now be controlled automatically by the tappet settings on your timeswitch, or you can use the manual switch as described. **Remember that the manual switch must be in position 0 for automatic control.**

200S/400S/ – 24 hour dial, minimum switching time 15 minutes.

CAUTION

Do not use to control radiant heat type electric fires as close proximity to flammable materials could cause fire.

Do not use for immersion heater control. There is a hard wire timer available from GRÄSSLIN conforming to beab regulations which is suitable for this application.

12 months guarantee

Should this product become defective within 12 months of purchase you should return it to the retailer or stockist from whom it was purchased. He may then issue a replacement or a refund at his discretion. We do not accept liability if product failure is caused by accident, misuse or neglect. Your rights under statute or common law are not affected.
